He asked the scouts to research this and to provide feedback through their leaders.

Mayor Gallagher commented that there is a LOSAP program which allows volunteers to earn a very small pension which was approved by the voters through a referendum a number of years ago..

Mr. Kurilla commented on the fuel charges that are incurred by the Borough.

Clerk-Administrator Sluka replied that there is a tank located at DPW for diesel fuel for the trucks and there is also a fuel tank located at Borough Hall for heating fuel. .

The purpose and intent of this section is to encourage creativity in “indicating the business and goods or services provided, and contributing to the positive image of the business. Signs should employ understandable graphic symbols, a concise message presented in a legible letter style, and the controlled use of color and graphic design to best achieve the sign’s purpose. Original and creative designs are strongly encouraged, but the key is for the sign to fit the building’s proportions and the district’s character. The use of logos or graphic symbolism to complement the lettered sign is also encouraged. For example, the cut- out shape of eye glasses outside the optician’s business identifies the service without any lettering”.

- (e) Except in the B-5 and B-6 zone districts, wall signs shall be located on the 1st floor building façade.

- G. Signs in the Special Improvement District. All signs within the Special Improvement District should conform to the intent of the written guidelines established by the Architectural Review Board, in addition to any other regulations that may apply in the zone district.
